Support for various kinds of Homes

The Scheme shall provide two types of grants under this component, i) Construction and Maintenance Grant and ii) Maintenance Grant. While under the construction and maintenance grant, the scheme shall support State Governments/UTs in construction and maintenance of a new home, under the maintenance grant support to such homes/institution shall be provided for maintenance only.

1. Shelter Homes

While a large number of urban marginalized children are in need of day care services, there are many others who require residential care for a temporary period for one or more reasons. These include children without parental care, run away children, migrant children, and child substance abusers etc. The Juvenile Justice (Care and Protection of Children) Act 2000 and the Central Model Rules framed thereunder empower State Governments to recognize reputed and competent voluntary organizations, to cater to the needs of such children. The State Government shall provide financial assistance to set up and administer such Shelter Homes of which at least one Shelter Home in the State is to be notified and designated by the States/UTs as a Home for the care, detoxification and counselling of children affected by substance abuse. These Shelter Homes shall offer day and night shelter facilities to the children in need of support services for a temporary period, while efforts are made to rehabilitate them. In order to facilitate and expedite the setting up of Shelter Homes in every district or group of districts, the scheme shall provide financial support to the State Governments and Union Territories.

2. Children's Homes

A large number of children in need of care and protection who enter the juvenile justice system through the Child Welfare Committees (CWCs) are in need of residential care and protection during the pendency of any inquiry and subsequently for their long-term care, treatment, education, training, development and rehabilitation. The Juvenile Justice (Care and Protection of Children) Act 2000 empowers the State Government either by itself or in collaboration with voluntary organizations to set up C Homes in every district or group of districts for the reception and residential care of such children. These homes shall serve as a home away from home and provide comprehensive child care facilities to children for ensuring their all-round development. They shall work towards enhancing the capabilities and skills of children and work with their families with the view of facilitating their reintegration and rehabilitation into mainstream society.

3. Specialised Services for Children with Special Needs

a) A significant number of children are affected/infected by HIV/AIDS. Many children are affected by substance abuse or are mentally or physically challenged. Such children are in need of long term care because of abandonment, death of one or both parents or inability of parents/guardians to take care of them. Such children are especially vulnerable as they are least likely to have family care alternatives and hence require specialized institutional care and treatment including medical, nutritional, and psychological support.

b) The scheme provides additional financial support to the institutions having children with special needs, as mentioned above. Further, the scheme also provides flexibility to the States/UTs to either integrate the Program for children with special needs in its existing institutions or support setting up of specialized homes for such children. The primary focus however shall be on integrating services for children with special needs in existing homes. A separate home for such children shall only be set up in a situation where there are a large number of children with special needs in a district or group of districts.

4. Open Shelter

The flexible mechanism of Open Shelters is catering to the unique needs of these children particularly in urban areas and aims to harness their talent and potential, thus giving them the opportunity to become productive citizens. These are community based safe spaces which provide a space for children where they can play, study, use their time productively and engage themselves in creative activities through music, dance, drama, yoga & meditation, computers, indoor and outdoor games, etc. in a safe environment and located within their own community.

Open Shelters in urban and semi-urban areas will cater to all children in need of care and protection particularly beggars, child substance abusers, street and working children, rag pickers, small vendors, street performers, orphaned, deserted, trafficked and run-away children, children of migrant population, children living in unauthorized areas/slums, children of socially marginalized groups and any other vulnerable group of children. The objectives of these Open Shelters include:

- To attract above-mentioned target group of children from their present vulnerable life situation to a safe environment;
- To wean these children away from the vulnerable situations by sustained interventions;
- To guide these children away from high risk and socially deviant behaviours;

- To provide opportunities for education and develop their potential and talent;
- To enhance life-skills and reduce their vulnerabilities to exploitation;
- To reintegrate these children into families, alternative care and community;
- To carryout out regular follow up to ensure that children do not return to vulnerable situations.

]

ANNEXURE VIII - OPEN SHELTERS FOR CHILDREN IN NEED FOR URBAN & SEMI-URBAN AREAS

1. *Financial Support for a Unit of 25 Children*

S.N.	Item	Amount (in Rs.)
A. Non-recurring Expenditure (once in five year)		
1.	Furniture including mattresses for children, 25 steel lockers, cupboards, tables and chairs etc.	1,50,000
